## Bachelor Degree Bachelor of Nursing Science Program

**Visions**  
To serve as an educational institution preparing top graduate nurses in Asian

### About Bachelor of Nursing Science program

Bachelor of Nursing Science program was established in order to respond to the demands to prepare graduates who meet the needs of the society in southern border provinces and global in Community.

The student admission began since the academic year 2013 up until present. The main objective is to prepare the graduates for the enhancement of their capabilities in the six desirable arenas including 1) Moral and ethical behaviors, 2) Knowledge, 3) Intellectual skills, 4) Interpersonal skills and responsibility, 5) Numerical analysis skills, and 6) Information technology and professional skills that focus on transcultural and disaster nursing.

### Missions

- ✦ To produce graduate nurses to meet international standards and possess competence in transcultural and disaster nursing
- ✦ To produce high standard of research and health innovation
- ✦ To provide health academic services that respond to the needs of a multicultural community and the changing global situation by emphasizing on the participation of a community and the network of affiliated organizations for sustainable community
- ✦ Developing a management system to support changes in the 4.0 era
